VIDEO MOUNT PRODUCTS

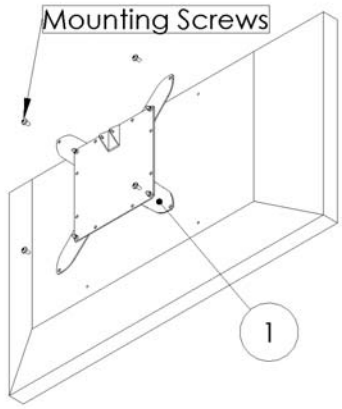
Step 2: Attaching the AP-2B to the mount



Step 3: Attaching the flat screen to the AP-2B

Step 1

Before starting, lay out all parts to your mount and match them to the parts list provided. Verify that you have all your parts before attempting to assemble the mount.

Note: For the purposes of these instructions it is assumed that you have already assembled the VESA 200 mount which you want to attach the AP-2B to. If you have not done so please proceed to do so at this time.

Step 2

Attach the AP-2B to the VESA 200 plate by inserting the flat head screws (2) into the countersink holes in the front of the AP-2B (1). Then use the nylon nuts (3) on the backside of the VESA 200 plate to secure the flat head screws (2).

Step 3

Attach the flat screen to the AP-2B (1) using the correct size screws that are provided with the VESA 200 mount.

Please verify that all nuts and screws are securely tightened.
